呼伦贝尔大草原

HULUNBUIR GRASSLAND

This new game from Play-Synergy creates a unique winning immersive experience using all four seasons of the year. With a unique four level static credit awards, this will be sure to draw your customers attention. Customers will love "wild stacks activator" with activating gold symbols by bet levels.

Cabinet Dimensions:
Depth: 27.38"
Width: 26.77"
Height: 74.51"
*Height with tower light 79.95"

Base and Free Games Persistence Feature

Reels 2, 3, 4 and 5 have a counter which is incremented every time a full stack of EM symbols land on that reel. Every time the counter value equals 2, all EM symbols from the stack are transformed into wild symbols. Then, the corresponding counter is reset to zero.

For the base game the counters are initially set to zero.

At the beginning of the free spins, each of the counters is initialized to 0 or 1 with equal weight.

Jackpot and Lasso the Horse Trigger

Every time after the conclusion of the base game, if no free spins are triggered, we use the jackpot decision table to determine whether (1) the Archery Jackpot Bonus is triggered or (2) the Lasso the Horse bonus is triggered.

If the Horse Shot bonus is triggered we draw one horse from the Horses table.

Lasso the Horse Play

An outcome is picked randomly with replacement from the HORSE_SHOT table. If the outcome is a horse, that horse is captured, the corresponding prize is paid and the bonus ends. If the outcome is "REPEAT", the procedure is repeated. Thus, it is guaranteed that a horse will be eventually captured during the bonus.

The weight of the REPEAT outcome does not influence the final expected value. It can, however, be used to fine tune the players excitement, by delaying the final outcome. If the REPEAT weight is increased, the average number of lasso draws also increases.
